L1 E1 - Step 6

June 10, 2021

1 STEP 6: Repeat the computation from the facts & dimension table

Note: You will not have to write any code in this notebook. It's purely to illustrate the performance difference between Star and 3NF schemas.

Start by running the code in the cell below to connect to the database.

run faster?

2   Conclusion

We were able to show that: * The star schema is easier to understand and write queries against. * Queries with a star schema are more performant.
